Israel hits back, markets react; STI down 0.4%

THE Straits Times Index (STI) closed at 3,176.51 points on Friday (Apr 19), down 11.15 points or 0.4 per cent, following news that Israel had retaliated against Iran's aggression. Decliners beat advancers 372 to 244.

Asian indices were mostly in negative territory by the end of trading on Friday.

Taiwan's TSEC Weighted Index was at the bottom of the pile, ending down 3.8 per cent. Not far behind was Japan's Nikkei 225, down 2.7 per cent. The FTSE Bursa Malaysia KLCI bucked the trend, however, and was up 0.2 per cent.

The sell-off follows two consecutive days of moderately positive sentiment in Asian markets, as investors appeared to have adequately priced in a delay in the lowering of the United States Federal funds rate as well as an escalation of tensions in the Middle East.

Reports that Israel has attacked Iran may have reignited some war worries, though.

"If the situation in the Middle East escalates further, it could continue to weigh on global and regional markets," said Vasu

Menon, managing director, investment strategy, at OCBC.

"In the short term, investors will have to brace for more volatility and possible more downside for markets depending on how developments in the Middle East play out."

Early indications after reports of explosions in Isfahan were that Iran was downplaying the Israeli action.

Friday's activity put the STI down 1.3 per cent for the week,

the third consecutive week of decline.

The biggest loser for the week was DFI Retail Group Holdings, down 11.5 per cent.

The biggest winner, meanwhile, was UOB, up 1.2 per cent. The bank's group chief executive and deputy chairman Wee Ee Cheong had on Thursday said it is targeting a return on equity of 13 to 14 per cent.

CSE Global bags US\$36.5m data centre contract extension

By Vivienne Tay
vtay@sph.com.sg

CSE Global has won a contract extension worth US\$36.5 million to design, engineer, fabricate, install and integrate power-management systems and solutions in the Americas region.

The contract is linked to an initial contract bagged in Q1 2022 for the data-centre market, and will be executed from Q1 2024 to Q4 2025, the automation solutions provider said on Thursday (Apr 18).

CSE group managing director Lim Boon Kheng expects the project to contribute positively to CSE's financial performance for the 2024-to-2025 financial years.

The group does not believe it will have any material impact on its consolidated net tangible assets per share or earnings per share for the current financial year.

Lim said the data-centre market continues to grow due to increased demand for cloud services.

"We are also investing to double our manufacturing and integration capacity to support this contract."

Major contracts

In December, CSE Global obtained two major contracts worth S\$27.7 million in the US.

The first was for the design, engineering and supply of power-distribution centres for manufacturing fabs.

The second was for the design, engineering, procurement and installation of environmental systems and equipment.

Under its diversification strategy, the group has been actively expanding its provision of critical communications services – or closed networks – to government agencies and large multinational corporations.

CSE Global's shares closed 1.2 per cent or S\$0.005 lower at S\$0.415 on Friday, after the announcement.
